DEMO

One tax season, in two minutes

[DEMO VIDEO] 2-minute screen recording supplied by Annuit

Filed the moment it lands
PDFs, phone photos, and scans go to the right client and tax year under your firm's naming convention.

Missing forms flagged in January, not April
Annuit compares what arrived with last year's documents and lists what is still out.

Wrong forms caught early
A 2024 form in a 2025 file gets flagged before it reaches the return.

ORGANIZE

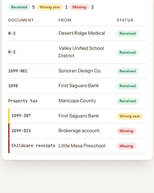

Sorted by what's inside, not what the file is called

Annuit reads each document, identifies the form, the payer, and the tax year, then files it in the right client folder and names it your way.

`Naming pattern: Year_Client_Form_Payer. Set your own.`

WHAT THE CLIENT SENT	WHAT LANDS IN YOUR FOLDER

WhatsApp Image 2026-02-03.jpeg	→ 2025_Garcia_PropertyTax_MaricopaCounty.pdf

▸ Garcia, Maria / 2025 / Income

TRACK

Know what's missing before your client does

Annuit builds an expected-documents checklist from last year's return. Each item shows received, wrong year, or missing, so follow-up starts on day one instead of the week before the deadline.

SOLUTIONS

Built for tax preparers

1 Intake
Send the document request in your client's language. Clients send PDFs, scans, or phone photos, however they have them.

2 Review
Every file is read, named, and filed under the right client and year, then checked against last year's documents.

3 Follow-up
Annuit drafts the request for what is missing or wrong. You approve it before anything goes out.

LANGUAGES

Your client's language, from first request to final reminder

Set a client to Spanish or Chinese and the interface and every message Annuit writes switch with them. Built for firms serving Spanish- and Chinese-speaking families from day one.

Hi Maria
Hola María
Maria 您好

ESTIMATE

How many hours does document chasing cost you each season?

SECURITY

Built to fit the security plan you already owe the IRS

Client documents stay private, encrypted, and yours.

> The IRS says: "Federal law requires tax and accounting professionals to create and maintain a Written Information Security Plan."
> IRS news release IR-2026-60, Aug. 19, 2026

Encrypted in transit and at rest [WISP1]
Client documents are encrypted while they upload and while they are stored.

Only your firm has access [WISP3]
Each firm's clients and files are separated, and access is limited to people you add.

You approve every message [WISP3]
Annuit drafts. Nothing reaches a client until a preparer reviews and sends it.

Your data stays yours [WISP3]
Export or delete your firm's documents when you need to.

Garcia household - 2025
Expected from last year's return

1099-INT	2024 bank-a-c-202...	Wrong payer
1099-DIV	Brokerage account	Missing
Children's receipts	Little Mesa...	Missing

Drafted follow-up · Waiting for your approval

Cc: CPA · W-2

Hi Maria, thanks for sending your documents. We still need 2 items to finish your 2025 return: your 1099-INT from Wrong payer and your brokerage account and your children's receipts. Please upload to 2024 1099-INT from First Saguaro Bank and 2024 brokerage account. We can submit everything with the same link.

SECURITY

Client documents stay private, encrypted, and yours

Tax preparers are responsible for the client data they hold. Here is how Annuit helps you meet that responsibility.

Annuit and your Written Information Security Plan

Tax professionals are treated as financial institutions for data security purposes and must keep a written plan for protecting client data. Annuit is one of the systems that plan covers. The details below are what you can reference in it.

> The IRS says: "Federal law requires tax and accounting professionals to create and maintain a Written Information Security Plan."
>
> Source: IRS news release IR-2026-92, Aug. 18, 2026

Encrypted in transit and at rest [VERIFY]

Client documents are encrypted while they upload and while they are stored.

Only your firm has access [VERIFY]

Each firm's clients and files are separated, and access is limited to people you add.

You approve every message [VERIFY]

Annuit drafts. Nothing reaches a client until a preparer reviews and sends it.

Your data stays yours [VERIFY]

Export or delete your firm's documents when you need to.

A preparer approves every message

Annuit reads documents and drafts follow-ups. It never sends anything to a client on its own. Every request goes out only after someone at your firm reviews it.
